**Town Administrator Updates**

The Administrator informed the Council that they should have the report from Sgt. Dan Cubino pertaining to the number of phone calls made to Alamance County Central Communications from the residents of Green Level. The total number of calls made from January 1, 2011 to January 17, 2012 was 1,444. Sgt. Dan Cubino reported to Council Member Howard that it would take a length of time to get the information he was requesting about repeat offenders.

The Administrator stated that at the last meeting, it was stated that the contract for Withers & Ravenel would be discussed. There was a couple of things the Attorney wanted to look at and asked the Council to approve the contract on the contingency that the Town's Attorney works out the differences with Withers & Ravenel. Ms. West, Town Attorney, stated that some of their standard terms are different.

The Mayor asked for a motion to approve the Administrator and Attorney moving forward on the contingency that the Town's Attorney works out the differences with Withers & Ravenel. Council Woman Graves made the motion, seconded by Pro Tem Trollinger. The motion carried unanimously. (5-0)

Mr. Mike Koser, Withers & Ravenel, gave a brief summary about the contract and gave the dates when the reports are due. The Town's reports are being viewed and are in front of fifteen other towns.

The Administrator reported to the Council that he was continuing to look for a public works truck. The Council instructed the Administrator to test drive the trucks he finds.

The Administrator gave an update concerning the Town's sewer meter and Haw River's bill. He continued to say that Haw River will be using the Town's meter readings until they get their meter calibrated.

Mr. Eddie Carrick, CPA Town's Auditor, gave the Council his report concerning the audit. He stated that the Town received an unqualified opinion which is the best kind of opinion the Town can receive. An unqualified opinion indicates that when the auditor came in to do their audit procedures, the financial statements they had reviewed, to the best of their knowledge, represented that the books were adequate for the Town of Green Level for this past year. Mr. Carrick continued with his report saying that small towns can get into trouble by allowing their expenditures to rule their budget.

Mr. Fonville continued to say that he had talked to the Administrator about sub-dividing some property down from this house, which is family property. The Administrator stated that if there is a road and the Town does not have the road in their paving plans to start to maintain the road, the property owner has to get 100% signatures on that street on both sides to get the street paved.
